MID SHORE BEHAVIORAL HEALTH

Greetings!

As we exit July, we reflect on the importance of National Minority Mental Health Awareness and BIPOC (Black, Indigenous, People of Color) Mental Health, noting that the work we do is never limited to a single month. Our current [Community Behavioral Health Plan](#), created by the Mid Shore Planning Collaborative (MSPC), focuses on systemic disparities on the shore impacting BIPOC and other minorities. Goal 2, found on page 168, states we will "Strategically address the impact of social determinants across the lifespan," with the first objective to, "Recognize the role of systemic social injustice and racial inequity and how it inhibits wellness in the mid-shore community." Specific strategies follow. This important work continues year round for MSBH and our partners in MSPC.

This issue, we have upcoming trainings that you don't want to miss, conveniently located below in [Announcements](#). *Best Practices in Telehealth Webinar* is offering CEUs. Check out the [Job Postings](#) section to see what positions are currently available, including three here at MSBH.

Did you know that [Health Center week](#) is 8/9 – 8/15?

We are happy to share your event, training, opportunity, new service, or job posting - please contact [Sherize Urquhart](#) with your news and information.

Enjoy your weekend,
MSBH Team
