## Core Service Agency Overview

### Introduction to the Guide

Mid Shore Behavioral Health, Inc. (MSBH) is pleased to present a revised 2022 edition of the Resource Guide for Behavioral Health Services in Caroline, Dorchester, Kent, Queen Anne's, and Talbot Counties in Maryland. This guide, while not inclusive of every service or behavioral health provider in the five-county area, represents MSBH's effort to help the citizens of the region become more aware of the services that are available to them.

Mid Shore Behavioral Health, Inc. is a private, not-for-profit 501(c)(3) core service agency charged with overseeing the behavioral health systems and services in the mid-shore region, with some programs serving the nine-county region of Maryland's Eastern Shore. MSBH was incorporated in 1992 through a collaboration of the five county governments and mental health stakeholders.

Mid Shore Behavioral Health, Inc.'s Board of Directors consists of members appointed by the five local governments, five at-large members, and two charter members representing all stakeholders, including consumers, family members, or other residents of the five counties who possess some expertise in the field of behavioral health.

### Mission

Mid Shore Behavioral Health, Inc.'s mission is to continually improve the provision of behavioral health services for residents of Caroline, Dorchester, Kent, Queen Anne's, and Talbot counties through effective coordination of care in collaboration with consumers, their natural support systems, family members, providers, and the community at large.

### Vision

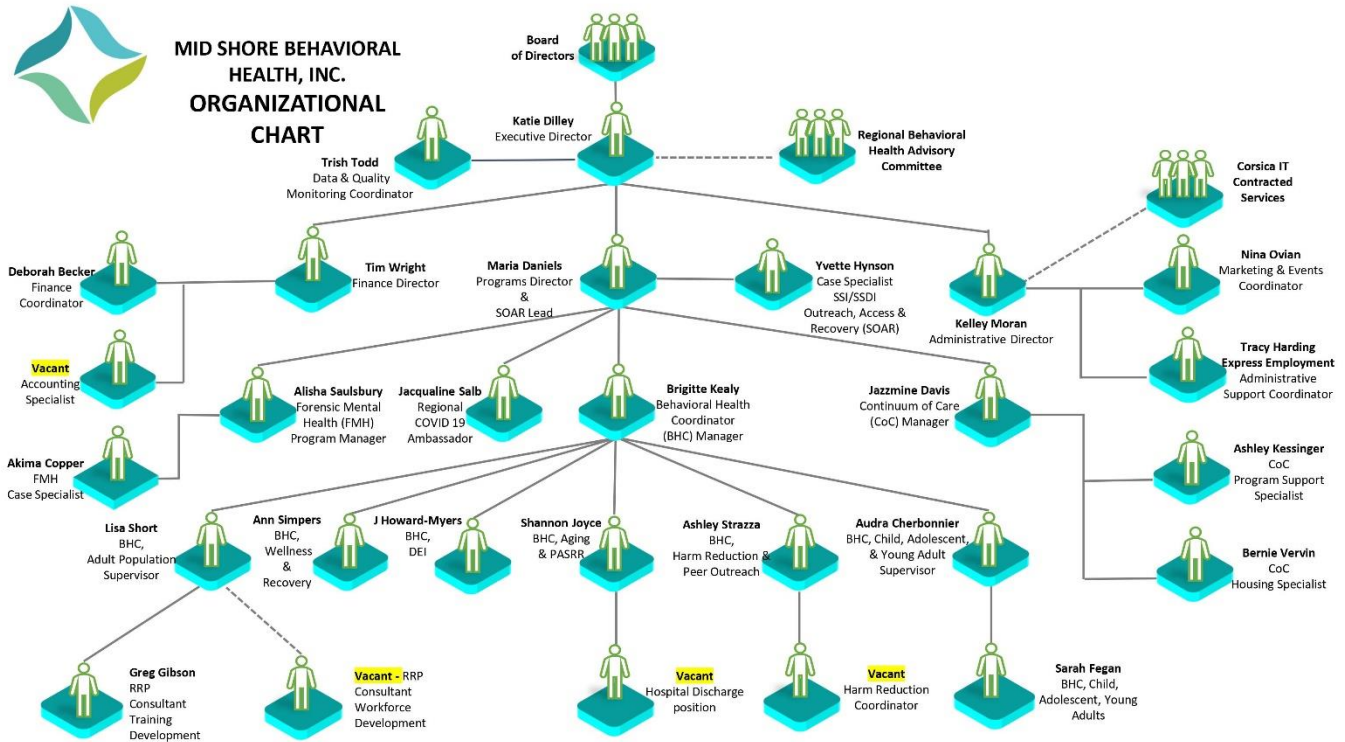

Mid Shore Behavioral Health, Inc.'s vision is a rural behavioral healthcare delivery system that is clinically and culturally competent. This system will ensure access, have a community focus, be cost-effective, and be integrated to serve the community.

### What We Do

Mid Shore Behavioral Health, Inc. strives to enhance a regional behavioral health system of care through effective collaboration with consumers, providers, and community leaders. MSBH's goal is to develop a full array of accessible services and resources for the consumer through partnership with our providers and other agencies. MSBH offers guidance in understanding and navigating all that is available in our community. Beyond the primary responsibility for local publicly funded mental health services, MSBH understands that behavioral health is essential to overall health, and many domains of life contribute to one's behavioral health, especially having a home, purpose, and community connection. MSBH seeks to address the needs of the whole person and collaborates to improve the systems of care of the whole community throughout the region. The most

important core value of our organization is hope: the belief that resiliency and recovery are real provides the essential and motivating message of a better future – that people and communities can and do overcome the internal and external challenges, barriers, and obstacles that confront them to achieve wellness.

### What is a Core Service Agency?

A Core Service Agency (CSA) is a state funded agency, as part of local health departments, local county governments, or non-profit organizations that operates under contract with the State of Maryland’s Behavioral Health Administration (BHA), a division of the Maryland Department of Health (MDH). The Annotated Code of Maryland Health General Article 10-1201 through 1203 mandates Core Service Agencies, Local Addictions Authorities, and Local Behavioral Health Authorities. Mid Shore Behavioral Health, Inc., as a CSA, functions under the MDH Secretary’s authority. Mid Shore Behavioral Health Inc. is a regional, non-profit CSA that serves five mid-shore counties and is the only regional CSA in the State. MSBH’s primary responsibility is community planning, management, and monitoring of publicly funded medically necessary behavioral health services in the five-county region for consumers across the life span: children, adolescents, adults, and the aging population. Optum Maryland Behavioral Health is the Administrative Services Organization (ASO), which is the organization under contract with the MDH Medicaid Office to process claims, enroll consumers, pre-authorize medically necessary services, credential providers, and pay claims.

### Who are the Consumers in the Public Behavioral Health System?

The Public Behavioral Health System (PBHS) provides for medically necessary services for the Medical Assistance recipient and for some individuals who are uninsured, or Medical Assistance Ineligible.

# Mid Shore Behavioral Health, Inc. Services

Mid Shore Behavioral Health, Inc. works to connect people and consumers in need to behavioral health services by providing information about providers and treatment agencies in the local mid-shore region. Individuals experiencing mental health, substance use, homelessness, disabilities, or problem gambling challenges can visit **MSBH's website** or call the main office for resources and assistance getting connected to behavioral health services.

Consumers are individuals receiving behavioral health treatment and rehabilitation services within the fee for service Public Behavioral Health System (PBHS). Consumer assistance can be obtained by submitting a **Consumer Support Services Request** for pharmacy assistance, transportation to behavioral health-related appointments, laboratory costs as it relates to behavioral health treatments, and other support needs that help to achieve or stabilize community placement, which include one-time annual help with first month's rent, security deposit, utility turn on or deposit, basic household goods to establish a residence, or past due utility, rent, or mortgage if the applicant can show sustainability, referred to as a "special needs." All applications are subject to evaluation and approval. Incomplete applications will be denied and returned.

MSBH can also assist with concerns regarding the services you or a family member are receiving. We first encourage you to discuss your concerns directly with the provider, however, if further assistance is needed, please call our office at 410-770-4801.

If you have been denied a service by Optum Maryland Behavioral Health, the Administrative Services Organization (ASO), you have the right to appeal that decision. Please refer to **MSBH's website**.

Mid Shore Behavioral Health facilitates the quarterly Behavioral Health Services Network (BHSN) meetings, where stakeholders discuss trends, changes, and issues concerning behavioral health in the Eastern Shore. The network comprises eight workgroups whose members include providers, consumers, and behavioral health professionals. All BHSN meetings are open to the public.

These workgroups are:

- Adult Services Workgroup
- Children, Adolescents, and Young Adults Workgroup
- Crisis Intervention Team Workgroup
- Diversity and Inclusion Workgroup
- Forensic Workgroup
- Mid-Shore Roundtable on Homelessness
- Mid-Shore Peer Workgroup
- The People's Roundtable

Visit the **BHSN page on the website** for additional details and contact information for the workgroups. Those interested in helping build the best Public Behavioral Health System are encouraged to participate in these groups. If you would like to be added to MSBH's bi-weekly newsletter to stay updated on mid-shore behavioral health-related meetings, trainings, and events, sign up for MSBH's Steering Wheel newsletter **on the website**, or text MSBH to 22828.

The Forensic Mental Health Program (FMHP), through Mid Shore Behavioral Health, Inc., focuses on the intersection between the criminal justice and mental health systems by working to evaluate and connect criminal defendants and probationers to the limited community mental health resources available on the mid-shore. The FMHP staff works closely with Judges, Masters, Parole and Probation Agents, and local detention centers to assist in cases where the defendant has mental health and/or co-occurring issues. The FMHP staff provides mental health evaluations, jail diversion plans, referral

**Caroline County Detention Center:** 410-479-4117

**Dorchester County Detention Center:** 410-228-8101

**Kent County Detention Center:** 410-810-2266

**Queen Anne's County Detention Center:** 410-758-3817 option 5

**Talbot County Detention Center:** 410-770-8136

**Maryland Community Criminal Justice Treatment Program (MCCJTP)** is operational in all Maryland jurisdictions except Montgomery County and Baltimore City, assisting local detention centers in meeting the comprehensive needs of justice-involved individuals. In collaboration with the Core Service Agencies (CSAs), the program delivers both clinical treatment and case management services reaching an average of 10,000 individuals annually. Each participating jurisdiction works in partnership with experts from agencies that provide behavioral health services, case management, and legal counsel services. In addition, input is sought from representatives from the detention centers, judiciary, parole and probation, law enforcement, social services, consumer advocates, and community. For more information, please contact the program coordinator, at 410-402-8482

## Trauma, Addictions, Mental Health and Recovery (TAMAR)

**Phone:** 410-476-4441 **Email:** [hhornfeck@forallseasonsinc.org](mailto:hhornfeck@forallseasonsinc.org)

**Trauma, Addictions, Mental Health and Recovery (TAMAR)** is a State funded program offered to women who are detained in Caroline and Dorchester detention centers. These women have been identified, or self-identified, as having a history of physical and/or sexual abuse and a recent treatment history for a mental health condition, as well as a drug use/use disorder. Individuals eligible to participate are encouraged to voluntarily join the program with the knowledge that participation does not in itself reduce jail time. Program services are delivered by a licensed, Master's level clinician who is responsible for providing bio-psycho-educational treatment in accordance with the TAMAR program manual. Case management services are to be conducted by an individual with a minimum degree of baccalaureate and provide coordination of services while the consumer is incarcerated, as well as development of an aftercare plan with the consumer in making community referrals, advocating "mainstream" services, and establishing communication for monitoring the receipt of treatment upon re-entry to the community. Ensure the education of detention center staff members, community mental health providers, and appropriate stakeholders about the needs of trauma survivors. Maintain communication with courts, parole and probation, and community-based providers to educate about TAMAR.

## Psychiatric Rehabilitation Programs

Psychiatric Rehabilitation Program (PRP) services facilitate an individual’s recovery to develop or restore an individual’s independent living and social skills, including the individual’s ability to make decisions regarding self-care management of illness, life, work, and community participation, as well as promote the use of resources to integrate the individual into the community. Services may be provided in an on-site facility, or in a setting most conducive to promoting the participation of the individual in community life.

Bee Well is a holistic healing and mental health group practice. We focus on helping you achieve your goals through a holistic lens. Alternative healing practices such as yoga, reiki, mindfulness and meditation are used in conjunction with more traditional modalities like EMDR, sensorimotor psychotherapy, CBT, and motivational interviewing to help you create change. We believe in cultivating a comfortable environment that feels like home to promote healing. Bee Well knows the value of relationships in therapy and takes special care to match each client with the therapist who can best help them. Reach out today for a free 20-minute consultation.

By developing and delivering training and technical assistance, MarylandROTA aims to strengthen the ability of rural communities in Maryland to help identify, understand, and respond to the opioid epidemic. Our goals are to, first, leverage the existing University of Maryland Extension (UME) programs and system to enhance the ability of rural Maryland communities to identify, understand, and respond to the opioid epidemic. Second, we strive to serve rural communities throughout Maryland by increasing public awareness, understanding, and skills to respond to opioid misuse and decrease overdoses and deaths, which is in alignment with state goals.</p>

Residential services are available to persons with developmental disabilities via a referral service in conjunction with the Dorchester County Health Department's Office of Developmental Disabilities. Through this referral process, a plan is developed to secure appropriate funding and decide on the level of care needed to meet the individual's/service plan. Services range from drop-in supervision to 24-hour supervision. Individuals may live in single dwellings or in homes having three to five bedrooms. Everyone is assigned a coordinator who monitors their care and supervision and makes certain their outcomes and goals are addressed. Call 410-221-1900 ext. 137 for more information. The Vocational Program is a multi-faceted approach that offers many opportunities for individuals with developmental disabilities. Several avenues of training and work are available based on the McCarron Dial Basic Vocational Evaluations, and the goals and desires of the individual. Call 410-221-1900 ext. 120 for more information. Respite is a program that helps caregivers get a break from the care they provide a loved one. This allows caregivers to be able to continue to do what they do, caring for a loved one. They can use the respite hours for vacation, appointments they have, shopping, etc. Caregivers are reimbursed. There are five respite care programs administered by Delmarva Community Services. All programs require an application. Contact the office to see if you or your loved one qualifies for one of the programs.

CASA (Court Appointed Special Advocates) of Caroline		
Contact	Ages	Counties
<b>Phone:</b> 410-479-8301 <b>Email:</b> carolinecasa@verizon.net	0 – 21	Caroline County
CASA of Caroline advocates for children who have been removed from their homes and found by the courts to be CINA (Child in Need of Assistance) due to serious risk factors such as abuse, neglect, or abandonment. We believe every child has the right to thrive in a safe, permanent, loving home.	Court Appointed Special Advocates are screened, trained, and supervised adult volunteers who are appointed by the Circuit Court to make assessments and recommendations regarding what children need to meet their full potential and achieve permanency as quickly as possible. CASA of Caroline typically uses a one-to-one model, where volunteers are appointed to only one child, or possibly a sibling group, although we have recently introduced a CASA Team model that allows spouses or close relatives to function as a team of two to provide an additional set of ears and eyes to ensure the best interest of every child adjudicated as CINA is represented in court.

## Greensboro Connects Initiative

The Greensboro Connects Initiative is a program that connects multiple services with residents of the Town of Greensboro and surrounding areas. This initiative will provide an office-style physical space to organizations including non-profits that provide a service to the community. Those organizations will have the opportunity to provide services to residents who do not have the financial resources or transportation to access those services. Due to the lack of public transportation in the area, low-income families find it difficult to travel to access these services that are located about 35-45 minutes away. This initiative seeks to provide mental health services, Substance Abuse, Family Resources/Youth Program, among others.

<p>Mobile Treatment Services provide assertive outreach, treatment, and support to individuals with mental illness who may be homeless, or for whom more traditional forms of outpatient treatment have been ineffective. Service is mobile and provided by a multidisciplinary team in the individual's natural environment. Mobile Treatment Services also are available for children, adolescents, and their families who require more intensive intervention to clinically stabilize the child's or adolescent's psychiatric condition, to promote family preservation and/or to return functioning and quality of life. Services provided include psychiatric evaluation and treatment, clinical assessment, medication management/monitoring, interactive therapies, support with daily living skills, assistance with locating housing, and case management. The duration, frequency and intensity of services provided are determined by an individual's treatment plan. The goals are to connect consumers to treatment services in the community, avert hospitalizations, and remediate tenuous living situations. Additional information and referrals can be found on MSBH's website.</p>

Compass Regional Hospice serves the communities of Queen Anne’s, Kent, and Caroline counties, including private residences and assisted living and nursing facilities. In addition to our home hospice and bereavement care programs, we offer Bridges, a nonmedical supportive care program for individuals who are transitioning to the next level of care or are not yet ready for hospice. When care at home is no longer an option, our residential hospice centers in Centreville and Chestertown offer a clinically supportive environment with around-the-clock care in a home-like setting. We also are a Level 4 partner of the We Honor Veterans program and offer veteran-centric care to our military men, women, and families. Our staff can provide additional information and tools to our patient families surrounding veteran end-of-life experiences, benefits provided to them and other ongoing projects to recognize the dedication of their loved one.

# Information on Entitlements

## Income Supports: Federal Level

### Supplemental Security Income (SSI-Title XVI)

Supplemental Security Income (SSI-Title XVI) is a federal government income supplement is for those who meet the Social Security Administration's (SSA) requirements for financial need due to disability, blindness, or age, and have no substantial history of employment. If you are found eligible for SSI, you are automatically eligible for Medical Assistance.

### Social Security Disability Insurance (SSDI-Title II)

Social Security Disability Insurance (SSDI-Title II) is a federal government income support is also for those who have met eligibility requirements for disability but is based on the amount and recency of one's past earnings. Benefits from a spouse's record can be granted to a disabled widow over age 50, even if the widow has never been employed. Individuals who are disabled prior to age 18 may be able to draw on a disabled, deceased, or retired parent's claim indefinitely.

For both entitlements, there is a complex application process and several eligibility requirements that must be met. The application process begins by contacting the local Social Security Office located at 828 Airpax Road Suite 500, Cambridge, Maryland 21613, visiting the website: [www.ssa.gov/ssi](http://www.ssa.gov/ssi), or calling 410-228-8811 or 1-800-772-1213 to request full information as well as forms to be mailed to you, and to schedule an appointment.

Information that you will need to submit:

- ❖ Original social security card and proof-of-age documents (no copies accepted).
- ❖ Full medical information including name, address and phone numbers of all physicians, hospitals, clinics, that have provided treatment. This is needed to document your disability.
- ❖ Summary of employers and type of work performed during the previous 15 years.
- ❖ Copy of the previous year's W-2 form from any employment.
- ❖ Proof of marriage if the spouse is applying.

It is recommended that the completed application and all accompanying and subsequent documentation be hand delivered to the Social Security office rather than mailed. You should request a receipt or some documentation from SSA. If applying for SSI, you will also need full information regarding financial assets: bank accounts, stocks, bonds, trust accounts and burial accounts or trusts. If you are living with family who helps to support you, the monetary award will be less. Families are often contacted regarding how much support they provide. If a recipient of SSI obtains employment, Social Security must be notified immediately.

Social Security considers many factors in making awards, including ability to work and diagnosis. Some diagnoses qualify a person automatically; others require substantial documentation and may require a physical examination by a physician under contract with the Social Security Administration. The process of determining your disability is the same for SSI and SSDI. The process takes approximately 120 days and will include consideration of your ability to work in jobs other than the kind you may have done prior to becoming disabled.

## SOAR Initiative (SSI/SSDI Outreach, Access, and Recovery)

**SOAR**, Supplemental Security Income (SSI) / Social Security Disability Benefits (SSDI) Outreach Access and Recovery, is a national program designed to increase access to Social Security Insurance (SSI) / Social Security Disability Insurance (SSDI) for adults who are experiencing or at risk of homelessness and have a mental illness, medical impairment, and/or a co-occurring substance use disorder. Local agencies that have SOAR trained staff include Alliance, Inc., Chesapeake Voyagers, Inc., Crossroads Community, Inc., Community Behavioral Health, Mid Shore Behavioral Health, Inc., the Neighborhood Service Center, and St. James Zion Church. **Contact:** Yvette Hynson, SOAR Case Specialist, ext. 312 or Carole Wills, LMSW, Behavioral Health Coordinator, Adults ext. 322

## Maryland Medical Care Programs

### Medicare

Medicare is an insurance program that pays medical bills for people who are at least 65 years old, or who are disabled. It is available to people who receive Social Security benefits regardless of how much money they have. It pays medical bills with money from the Social Security Trust Fund, which most people pay into while they work. Retired and disabled people pay a monthly insurance premium for Medicare Part B. This is usually taken out of their Social Security check before they get the check.

If you are elderly and only applying for assistance with paying your Medicare premiums, co-payments, or deductibles, you may apply at your LDSS for the Qualified Medicare Beneficiary (QMB) or Specified Low-Income Medicare Beneficiary (SLMB) Program. QMB/SLMB applications may be filed by mail or in person. To receive an application, call your LDSS or the area Agency on Aging (AAA).

### Medicaid (Medical Assistance) Program

The Maryland Department of Health provides Medical Assistance, also called Medicaid (MA), coverage to individuals determined to be categorically eligible or medically needy. Medicaid coverage is automatically given to individuals receiving certain other public assistance, such as Supplemental Security Income (SSI),

Temporary Cash Assistance (TCA), or Foster Care. Effective January 1, 2014, Medicaid covers more adults ages 19 to 64, whether they have children or not. To qualify for Medicaid coverage through Maryland Health Connection, you must be under age 65, be a U.S. citizen or a qualified alien who has lived in the U.S. for five or more years and be a resident of the state of Maryland. Medicaid is also expanding to cover former foster children under age 26 who left the foster care system on their 18th birthday. Former foster care children do not have to meet income limits, they qualify because of their status as former foster care children. To apply for Medical Assistance, you can apply through Maryland Health Connection by calling 1-855-642-8572 or going to your local health department or department of social services.

### Employed Individuals with Disabilities (EID)

Employed Individuals with Disabilities provides Medical Assistance for people with disabilities who work. You pay a monthly premium based on your income.
